---

## Professional Summary

Self-driven developer with 2+ years of experience in building full-stack web applications using React.js, Node.js, and MongoDB. Passionate about clean code, scalable UI, and API development. Proven ability to build modern, responsive, and production-ready applications using Next.js, Tailwind CSS, and related technologies.

---

## Education

### Modern Academy

Bachelor of Computer Science, Expected Graduation: 2026

---

## Experience

### Freelance Full-Stack Developer

2022 – Present

- Built and maintained production-grade web applications for personal and client projects.
  - Designed and implemented scalable REST APIs and responsive UI components.
  - Applied best practices in clean code, performance optimization, and testing.
- 

## Leadership & Community Involvement

### Web Development Instructor – GDSC 2022 – 2024

- Taught full-stack development using the MERN stack in workshops and bootcamps.
- Mentored students on real-world projects and industry best practices.

### Head of Technical – GDG 2025 – 2026

- Led technical teams and organized community hackathons and tech talks.
- Oversaw development of open-source projects and community tooling.

### Web Dev Instructor – Enactus 2022 – 2023

- Delivered hands-on sessions covering modern web development practices.
  - Mentored beginner developers on their first web applications.
- 

## Key Projects

- **Full Stack Blog App:** Built a complete blog platform using Next.js 15+, MongoDB, NextAuth, Cloudinary, Prisma ORM, Tailwind CSS v4, and Framer Motion.

- **Travel Booking Platform:** Developed a travel booking web application with real-time search, booking management, and MongoDB backend.
  - **Ecommerce with Fake API:** Created a fully responsive ecommerce website integrated with a fake product API and modern UI components.
  - **Memory Game:** Built an interactive memory game using React.js with responsive design and smooth animations.
- 

## Skills
